# FINANCIAL AND COMMERCIAL.

MONDAY, AUGUST 1, 1870-6 P. M. The public debt statement shows a reduction of \$17,000,000 for the month of July, and of \$113,000,000 for the past year. The Treasury now holds a cash balance of \$140,000,000.

The markets were extremely dull. In the fore-noon the only dealings were in gold, the Stock Ex-change and Government Board having adjourned pending the funeral obsequies of the late Mr. Nathan. The price of gold before the board was 121%, from which there was a decline at the board on the report that bonds in Frankfort were 85. Subsequently, or the announcement of an unsettled feeling and lower prices in London, the price advanced to 121%, the cable stating that the Prussian Government was about to offer a loan of 150,000,000 five per cents at 88. When it was explained later that the loan needed not to be paid for until November next gold fell off to 12114, but on the rumor of a pt ched battle this afternoon rose to 121%, at which it finally closed, the market at the end being feverish and duil. The course of prices is shown in the table :-

Holders of gold paid from two to four per cent to have their balances carried over. The operations of the Gold Exchange Bank were as follows:—

MONEY EASY.

The heavy contraction of loans by the banks last week seemed to inspire lenders with the impression that better rates for money were obtainable, and some borrowers paid as high as six per cent on pledge of miscellaneous collaterals. Towards the close of banking hours money was in abundant sup-ply at five per cent on stocks and at four on govern-ments. Some of the leading government dealers had balances left with them at three per cent. Commercial is more active and a good deal of business is coing at seven to eight per cent for prime double

name acceptances.

POREIGN EXCHANGE STEADT. There is more uniformity in the rates for sterling exchange to-day, and quotations were steady at the closing figures of last week.

STOCKS DULL AND DECLINED. The Stock Exchange commenced business at one clock. Prices were steady at the opening but soon betrayed weakness and began to decline, their de-scent being accelerated by the proposal of the Prus-sian government to issue the new loan referred to above. The largest decline was in the Vanderbill tionally strong and remained steady. In most in-stances the lowest prices prevailed on the street sub-Room. The discovery of of the speculative manipulation of the government market by the foreign bankers led to lower prices, the downward tendency being assisted by the heavier market for five-twenties in London, and also by the apprehension that the new German loan of 150,000,000 thalers will help depress our securities abroad, temporarily at least. The favorable debt statement checked the decline, and prices toward the close improved. ## WORKING WOMEP'S RIGHTS AND WRONGS.

TO THE EDITOR OF THE HERALD :-Our thanks are due you for the great kindness you have bestowed on our association, by giving in the columns of your valuable paper so prominent a position to the meetings of our association. As you have so nobly promised the assistance of your paper in our behalf. I trust that we will meet with success. Many of the morning papers had some mistakes, by placing the names of some proprietors to the

Many of the morning papers had some mistakes, by placing the names of some proprietors to the wrong establishments, especially Albert Ridley, instead of Kinzey. Ridley's establishment is on Grand street, and it belongs to his tather, but it is the son who disgraces himself by searching the packages of the saleswomen. I exonerate Mr. Kinzey from that disgraceful habit, but not from the unchristianlike practice of compelling his saleswomen to stand. It is the small stores that keep open late, with the exception of some leading establishments on Sixth and Elghth arennes, who close for the summer season only. Any people are deceived by the stores closing now; but wait until the fail and winter season opens, then they will discover some of those leading establishments wide open after ten P. M., Safarday nights until twelve P. M. It is to the working classes who patronize those establishments after seven P. M. that I now appeal. If they desire to assist our organization let them abstain from purchasing in any fancy goods establishment that keeps open after seven P. M. The saleswomen now appeal to the trades unions, to the members' wives, daughers and sisters, to do all their shopping before seven P. M., and their refusal to purchase after that hear will be the most powerful inducement to compel the proprietors to close at that time. They are not desirons of paying association is the abrilging of their long hours of toil. By the list of September a request will be made to close all fancy goods stores at seven P. M. every evening throughout the whole year, Saturday evenings excepted, when ten o'clock, it is thought, will be late enough to compel the saleswomen to waik home unatleaded, and be, perhaps, less liable to insult.

We trust that the workingmen's wives will need our appeal, and assure us of their willingness to respond. Our next meeting will be heid on Thursday evening, August 4, at Plimpton Hall, when a full attendence is requested of all saleswomen, employed or not; also those who are engaged in estab. Ishments that close at seven P. M. for the summer season only.
